

# SGA Turkey Student Chapter

## 14th April, 2019

**Georges Beaudoin**  
(Université Laval CANADA)

- Stable isotopes in orogenic gold deposits
- Indicator minerals for exploration

**Karen Kelley**  
(USGS, USA)

- Pebble (Porphyry Cu-Au)

**Sven Petersen**

(GEOMAR Helmholtz Centre, Germany)

- Seafloor minerals: A potential future metal resource?

**David Banks**

(Leeds University, UK)

- New Developments in Understanding Gold Mineralization

**Jorge Manuel Rodrigues de Sancho Relvas**  
(University of Lisbon, Portugal)

- Metallogenesis in the Iberian Pyrite Belt: An overview

**David Huston**  
(Geoscience, Australia)

- The changes in metallogenesis through geological time, or controls on volcanic-hosted massive sulfide fertility.

### Venue

Pamukkale University (Denizli, TURKEY)

(Date: 14 April, 2019, 10.00am)
